## **II. Purpose of Addendum**

Christian Montessori School of Ann Arbor is currently licensed for children 3 years of age and older. They are requesting to add young toddlers to their license beginning at 18 months of age, which will increase the capacity of their license. They will use an additional classroom in the school building for this program.

## **III. Methodology**

08/10/2010	Inspection completed – fire safety
08/31/2010	Inspection completed – environmental health
08/31/2010	Contact document received – modification request
09/03/2010	Inspection completed on site

## **IV. Description of Findings and Conclusions**

The additional classroom that will be used by children beginning at age 18 months is located in the newer addition of the school building. The area measures a total of 828 square feet, enough space for 12 young toddlers.

A bathroom is located in the classroom with a changing table, hand washing sink, and one toilet. There are several other toilets and hand washing sinks located throughout the school building.

An equipment list was provided. The room is very nicely arranged with an adequate supply of equipment available and accessible for the children to use.

Outdoor play will occur directly outside of the classroom. There is a door that leads out to the play area. The play area is fenced and does not have any play structures. No hazards were observed.

Alison Makarewich continues as the program director and Adrian Lopez is the lead caregiver in this additional classroom.

An environmental health inspection and a fire safety inspection have been completed.

**V. Recommendation**

I recommend the approval of adding a toddler program for children beginning at 18 months of age, increasing the capacity from 66 to 78, and adding the use of another classroom.
