RE: License #: DC330313431  
White Pine Academy  
510 Russell Street  
Leslie, MI 49251

Dear Mr. Vickers:

Attached is the Addendum to the Original Licensing Study Report for the above referenced facility.

Please review the enclosed documentation for accuracy and feel free to contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please feel free to contact the local office at (616) 356-0100.

Per MCL 722.113g, this report must be filed in your licensing notebook.

Sincerely,

Cheryl Gillespie, Licensing Consultant  
Bureau of Children and Adult Licensing  
7109 W. Saginaw  
P.O. Box 30650  
Lansing, MI 48909

<b>Facility Telephone #:</b>	(517) 589-8961
<b>Capacity:</b>	24
<b>Program Type:</b>	CHILD CARE CENTER

## **II. Purpose of Addendum**

On August 23, 2012, Jared Vickers, licensee designee, requested a changed of use space and an increase in capacity to accommodate the addition of an infant room. The change results in an increase in capacity from 20 to 24 children.

## **III. Methodology**

08/23/2012 Modification request received.

08/23/2012 Inspection completed on-site.

## **IV. Description of Findings and Conclusions**

White Pine Academy is a charter school for students in kindergarten through eighth grade. The school also houses a preschool program for children aged three through five years. Room 27 is currently being added as an infant/toddler room for children aged six weeks to three years.

The following rooms are approved for use:

- Room 27 is 28.5 ft. x 24.5 ft. providing a total of 698 square feet. This is more than enough space for the requested room capacity of 4 infants and toddlers.
- Room 29 is 28.5 ft. x 24.25 ft., plus 3.75 ft. x 9.5 ft., providing a total of 727 square feet. This is enough space for the requested preschool capacity of 20 children aged three through five years.

Several rooms are approved as additional use space and have not been used to calculate the center's total licensed capacity. These rooms are as follows:

- Room 25 is 22.25 ft. x 28.75 ft., plus 2 ft. x 19.25 ft., providing a total of 678 square feet. This is enough space for a total room capacity of 19 children at one time.
- The commons is 31 ft. x 27.5 ft., providing a total of 853 square feet. This is more than enough space for the 20 preschool aged children 30 months of age and older. If children 29 months of age or younger are present, the capacity of this area is 17.
- The gymnasium is very large and can accommodate the center's entire licensed capacity.

The center's total capacity is 24 children aged six weeks through five years.

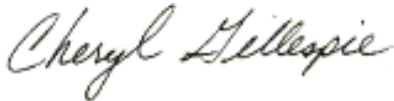

Room 29 and room 27 each have a bathroom attached to their classroom containing one hand washing sink and one toilet. There is also a boys' and girls' bathroom located in the hallway containing an additional four hand washing sinks, six toilets, and two urinals.

The classrooms are furnished with an adequate amount of developmentally appropriate materials and equipment to support the center's capacity and age range.

Environmental health and fire inspections of all areas were completed at the time of the original issuance. The building was constructed after 1978; therefore a lead risk assessment was not required.

**V. Recommendation**

I recommend approval of Room 27 for use by children 6 weeks of age to three years and an increase in capacity from 20 to 24 children.
