## IV. Description of Findings and Conclusions

On February 13, 2013, I conducted an on-site inspection at Childtime Learning Center in Macomb. I measured Room 15, which measures 31 feet X 31 feet=961 square feet. This is sufficient capacity for the requested capacity of 25 school aged children.

The following rooms and room capacities were previously approved by the department:

<u>ROOM</u>	<u>SQUARE FOOTAGE</u>	<u>CAPACITY</u>
Room 12 (Toddler)	26 feet X 26 feet=676	12
Room 13 (Young Preschool)	25 feet X 26 feet=650	18
Room 14 (Preschool)	30 feet X 30 feet=900	25
Room 16 ((Preschool K)	31 feet X 31 feet=961	25
Room 17 (Preschool)	26 feet X 27 feet=702	20
Room 18 (Gross motor)	26 feet X 27 feet=702	14
Room 20 (Infant)	23 feet X 22 feet=506	10
Room 21 (Infant)	23 feet X 22 feet=506	10
Room 22 (Toddler)	25 feet X 26 feet=650	10

The center will continue to be licensed for the requested capacity of 150 children at any one time.

There are a total of 9 toilets and 19 sinks in the center. Each infant and toddler

room has diaper changing areas with separate sinks for hand washing.

There is an adequate and varied supply of play equipment, materials and furniture for the requested capacity of 150.

Environmental health and fire safety inspections of all areas were completed at the time of original issuance. The center was built after 1978; therefore, they are not required to obtain a lead hazard risk assessment.

**V. Recommendation**

I recommend approval of Room 15 for use by school age children.
