## II. Purpose of Addendum

This child care program seeks approval from the department to add additional child use space.

## III. Methodology

05/03/2016 – Received Modification Request

03/21/2016 – Environmental Health Inspection “A” Rating

04/21/2016 – Onsite Inspection

## IV. Description of Findings and Conclusions

This Plainwell GSRP preschool program is located at Starr Elementary School. The program currently utilizes Room 501. The program would like to add the gymnasium and library to the approved child use space. Despite the room measurements, the capacity remains at 18 children.

Room #	Room	Measurements	Total Space	Capacity
501	Preschool Room	31” x 25” 9” x 10”	775 sq. ft. 90 sq. ft.	25
326	Gymnasium	88” x 68”	5984 sq. ft.	170
322	Library	68” x 50”	3400 sq. ft.	97

Room 501 is a self-contained classroom having one toilet and one hand washing sink. Enrolled children will also use the restrooms located outside the classroom in the hallway. There is a separate facility for boys and girls. There is one toilet and one hand washing sink in each restroom. There are adequate restroom facilities for the licensed capacity of 18 children.

Teddy Walker, CPSI, inspected the school playground in August of 2007. The report identifies through the use of pictures items not approved for use by children ages 2-5. The program will not use these playground items. The outdoor play area is partially fenced. There are no water hazards.

Jamie Dentler of the Allegan County Health Department inspected the proposed child use space on 3/21/2016. He provided the child care center with an “A” rating.

This child care program is located in a school building and is exempt from a fire inspection.

The school building was constructed in 2005, therefore, a lead risk assessment is not required.

This preschool program will accept children four through five years old. The program will operate Monday through Thursday during the school year only from 8:35 a.m. until 11:35 a.m. and 12:20 p.m. until 3:20 p.m.

Sandy Zwiier is the named program director and meets the qualifications per licensing rules.

**V. Recommendation**

I recommend that Room 105, gymnasium and library be approved for child car use.
