III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the home's records, including staff records and children's records.

Staff records include background checks, medical clearance information, and training information. Children's records include child information cards and child in care statements/receipts.

During the on-site inspection the home was clean and organized. Child and home records were organized and readily available. I observed Ms. Porras interact with children in caring and nurturing ways. She used positive discipline strategies when needed.

I provided technical assistance and consultation on adult household members moving into the home, child records, walking permission slips, and modifications.

I sent copies of child information records and child in care statements with this report.

The facility is in compliance with all applicable rules and statutes

IV. RECOMMENDATION

I recommend issuance of a certificate of registration to this child care family home (capacity 1-6).
