Capacity:	43
Program Type:	CHILD CARE CENTER

II. Purpose of Addendum

On March 15, 2018, the licensee designee requested the approval of child care use space.

III. Methodology

03/15/2018 Modification Request Received

03/15/2018 Inspection Completed On-Site

IV. Description of Findings and Conclusions

The terms of the original license have been modified on August 18, 2011 and March 22, 2018.

The preschool program will use classroom 15/17. The classroom measures approximately 24 ft. x 56 ft., providing for a total of 1344 square feet. This allows for a total requested capacity of 24 children, preschool age and older.

The before and after school child care program, Kids Care, will use classroom 101. This classroom measures approximately 21 ft. x 32 ft., providing for a total of 672 square feet. This allows for a total capacity of 19 children, preschool age and older.

The previously approved rooms will no longer be used.

The total space is sufficient for a total center capacity of 43 children, preschool through school-aged.

There is a total of 13 toilets and 6 sinks located throughout the center. This supports the center's capacity.

The classrooms are furnished with a large supply of developmentally appropriate books, toys and supplies.

An environmental health was completed on August 08, 2010 and a fire safety inspection was completed on August 17, 2010 for the original issuance; new inspections are not required. A lead hazard risk assessment was completed on January 30, 2018.

Terms:

The center is approved for a total capacity of 43 children from preschool through school-aged.

The center is not approved for food service and will only be providing snacks.

V. Recommendation

I recommend the approval of classrooms 15/17 and 101 as child use space and an increase in capacity from 25 to 43.
