Dear Ms. Piotrowski:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your home on 12/10/2018. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Family and Group Child Care Homes.

During the on-site inspection the programming I observed included the following: free play, nap time, diapering and toileting. I observed the caregivers' interactions with the children in care to be developmentally appropriate and responsive to their needs.

The violations that were found are:

R 400.1941 Heat-producing equipment.

(2) Combustible materials and equipment shall not be stored within 4 feet of furnaces, other flame or heat-producing equipment, or fuel-fired water heaters.

I observed plastic flooring stored within 4 feet of the furnace.

During the exit conference, I provided technical assistance and consultation to Ms. Piotrowski on the following: safe sleep, fire and tornado drills, diapering and using Velcro straps on the pack and play.

Violations were identified at the time of the inspection. You have provided an acceptable written corrective action plan.

A follow-up inspection may be made to verify compliance. Should the corrections not be made in the specified time, it may be necessary to reevaluate the status of your license.

The Department provides technical assistance to meet the licensing requirements and consultation to improve services.

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (989) 732-8062.

Per MCL 722.113g, this report and any related corrective action plans must be filed in your licensing notebook.

Sincerely,

A handwritten signature in cursive script that reads "Chere Crudo".
