RE: License #: DC640023072
Hart Migrant Head Start
2354 E Polk
Hart, MI 49420

Dear Ms. Zuniga:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 09/19/2019. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During my onsite inspection, I observed an infant, a toddler, and a preschool classroom.

The infant room had five infants and two caregivers. During my time in the classroom, I observed the children and a caregiver engaging in a water play activity, caregivers changing children's diapers and clothing, children being laid down for naps and waking from naps, and children being fed lunch. The bond between the children and caregivers was evident, and the caregivers were responsive to the infants' needs.

There were five children and three caregivers in the toddler room. When I arrived in the room, they were prepping for lunch. I observed children coming to the table and eating lunch. While waiting for lunch, the caregivers engaged the children in singing songs at the table. I observed the toddlers helping to serve their own lunches and the caregivers encouraging and modeling self-feeding. Later, I observed the toddlers transitioning to naptime. The caregivers were responsive to the children's needs throughout my observations and engaged well with the toddlers.

In the preschool room, I observed seven children with two caregivers. One caregiver was changing children's diapers and helping them wash their hands, while the other was engaging children at the table in songs while they waited for their lunch to be delivered. One child was the "helper" and set the table. The caregivers sat with the children and

encouraged them to self-serve and self-feed. The children were aware of the routine and the expectations of mealtime. The caregivers interacted well with the children.

The violations that were found are:

R 400.8134 Hand washing.

(3) Staff and volunteers shall assure that children wash their hands at all of the following times:

(b) After toileting or diapering.

One caregiver in the infant room did not ensure that children's hands get washed after diapering. I observed her change a diaper and put the child down to play. When I informed her that she needed to wash his hands, she stated that she needed to get paper towels, then planned to wash his hands. Later in the inspection, I observed her change another infant's diaper and not wash the child's hands after.

Due to the violations, you must send us a corrective action plan by 10/10/2019. You can use our [corrective action plan](#) form or create your own.

If you need help writing the corrective action plan, please contact me. If you do not send a corrective action plan, you may face disciplinary action. The corrective action plan must include the following:

- How compliance with each rule will be achieved.
- Who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible party and a date.

Upon receipt of an acceptable corrective action plan, there will be no change to your license status.

During the exit conference, technical assistance/consultation was provided regarding the following:

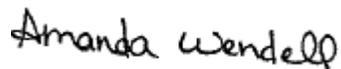

- All refrigerators must have temperatures of 41 degrees Fahrenheit or less. The refrigerator in the infant room measured 44 degrees.
- Attendance must be completed as children arrive and leave. The attendance log in the toddler classroom had not been completed as of 11:00 A.M. the day of the inspection.

You can find a copy of this inspection letter and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when inspection letters are completed can be found under [Overview of Licensing Reports](#).

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (616) 356-0183.

Per MCL 722.113g, this report and any related corrective action plans must be filed in your Licensing Notebook.

Sincerely,

A handwritten signature in black ink that reads "Amanda Wendell". The signature is written in a cursive, slightly slanted style.
