II. Purpose of Addendum

On July 31, 2019, Andrea Link submitted a request to the department to increase the use space within her child care family home. Ms. Link proposed to have two bedrooms on the upper level of her home approved as additional play and sleeping space for child care children.

08/20/2019- Terms updated.

IV. Description of Findings and Conclusions

The terms of the original license were modified on August 20, 2019.

On July 31, 2019 Ms. Link provided a modification request to add the master bedroom and the bedroom across the hallway on the upper level of the home for child care use space. The one bedroom and the room at the end of the hallway are not approved.

The upper level of the home has an operating smoke detector, carbon monoxide detector, and fire extinguisher. There is a smoke detector in each of the approved bedrooms. The stairs leading to the main level and the remotely located exit window provide exits.

Previously approved space includes the main level kitchen, dining room, living room and toy room.

V. Recommendation

I approve the request to add the two bedrooms on the upper level as child care use space.
