RE: License #: DC280317255
Building Blocks Preschool and CDC

Dear Ms. Mayersky:

This letter is a follow-up to the Department's findings regarding the interim inspection conducted at your center on 10/16/2019. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

During the onsite inspection, I observed 13 children in care with program director and caregiver Ms. Amy Mayersky and caregiver Ms. Chelsea Nelson during large group, small group, and choice time activities. Ms. Mayersky and Ms. Nelson facilitated learning experiences with children based on the theme of transportation while tying in color recognition using play cars and trucks, as well as alphabetic knowledge and phonemic awareness using the letter "Z" as in "zoom". Ms. Nelson engaged children with small group activities like interactive tic-tac-toe on a felt pumpkin, and by providing children with animal figures and play vehicles, as well as imaginative play items such as dolls, ponies, and playhouses.

As a result of the inspection, I did not find any rule or law violations.

Technical Assistance and Consultation were provided on the following:

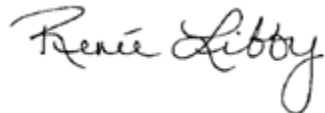

- It is allowable to initial the back of the fire extinguisher tag rather than documenting monthly extinguisher checks on a separate log.

You can find a copy of this inspection letter and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when inspection letters are completed can be found under [Overview of Licensing Reports](#).
