RE: License # DC640346173
World Of Wonder Childcare Center
302 Hanson St
Hart, MI 49420

Dear Ms. Ervay:

This letter is a follow-up to the on-site inspection conducted at your center on 01/08/2020. The purpose of this inspection was to determine compliance with applicable licensing statutes and administrative rules for Child Care Centers.

At the time of the onsite inspection, there were 12 toddlers and preschoolers present in the preschool area with 3 caregivers. Child were finishing an activity, washing their hands, and transitioning to having snack. The caregivers were well-organized and were responsive to the children's needs. In the infant room, there was one caregiver present with three children upon my arrival, with a fourth infant arriving while I was onsite. The caregiver was sitting on the floor interacting with the infants. She was responsive to their needs.

As a result of the inspection, I did not find any rule or law violations.

During the exit conference, technical assistance/consultation was provided regarding the following:

- I reviewed some of the child care center rule changes with the licensee designee and the program director.
- I clarified for the program director that, while bottles may no longer be warmed in a crock pot, they may be warmed in warm water so long as it is done in a safe and appropriate manner.
- I discussed with the licensee designee the requirement that all elevated outdoor play structures, regardless of height, must be surrounded by a shock absorbing

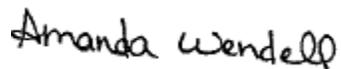

surface and must meet the guidelines in the Consumer Product Safety Commission Handbook for Public Playground Safety.

You can find a copy of this confirming letter and any associated corrective action plans on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of when confirming letters are completed can be found under [Overview of Licensing Reports](#).

Please contact me with any questions. In the event that I am not available and you need to speak to someone immediately, please contact the local office at (616) 356-0183.

Per MCL 722.113g, this report and any related corrective action plans must be filed in your Licensing Notebook.

Sincerely,

Amanda Wendell, Licensing Consultant
