III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of applicable key indicator child care home administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of some of the home's records, including staff and children's records. Staff records include background checks, medical clearance information, and

training information. Children's records include child information cards and child in care statements/receipts.

The facility is in compliance with all applicable rules and statutes.

During the inspection there were no children in care. I provided Ms. Terrell with an updated safety product recall list.

IV. RECOMMENDATION

I recommend issuance of a regular license to this child care family home (capacity 1-6).
