III. DESCRIPTION OF FINDINGS & CONCLUSIONS

This renewal inspection involved a review of all applicable child care center administrative rules and statutes. Verification of compliance included direct observations of the physical environment and the program, discussions with staff, and a review of the center’s records, including staff records and children’s records. Staff records include background checks and training information. Children’s records include child information cards, physical examination dates, and immunizations.

During the inspection, the center was found to be in compliance with all applicable rules and statutes except for the following violations:

R 400.8131 Professional development requirements.

(2) Child care staff members shall have training that includes information about prevention of sudden infant death syndrome and use of safe sleep practices before caring for infants and toddlers.

Child care staff members did not have documentation of sudden infant death and safe sleep practices before caring for infants and toddlers.

R 400.8131 Professional development requirements.

(3) Before caring for children, all child care staff members and unsupervised volunteers who work directly with children shall be trained on prevention of shaken baby syndrome, abusive head trauma and child maltreatment, and recognition and reporting of child abuse and neglect.

Child care staff members did not have documentation of training in the topics outlined in this rule. This training is covered in the Health and Safety Training Part 1&2. Child care staff members had not completed the Health and Safety Training.

R 400.8510 Plans and specifications; submission; approval; inspections.

(3) A fire safety inspection shall be conducted by the bureau of fire services or a department-approved qualified fire inspector, and an approval granted, before issuance of the original license and every 4 years thereafter, at the time of renewal.

A fire inspection has not been completed.

- You must accurately maintain the CCBC system. You must connect, disconnect or withdraw a person immediately.
- Eligibility letters must be made available upon request.

IV. RECOMMENDATION

Upon receipt of an acceptable corrective action plan, I recommend the issuance of a regular license to this child care facility.
