Dear Mr. Smith:

This letter is to advise you that the 04/10/2020 corrective action plan you submitted, regarding each rule violation cited in the recently completed Special Investigation Report, is approved. Your license has been modified to second provisional status.

You can find a copy of this corrective action approval letter and the associated report on our [website](#) under [Statewide Search for Licensed Child Care Centers and Homes](#). A description of each type of report and corrective action plans can be found under [Overview of Licensing Reports](#).

Violation cited	Noncompliance observed	Plan to correct	Date to be completed
R 400.8125(1)	On 03/02/2020, a caregiver fell while holding a child. The child continued to cry of and on for almost an hour after the fall, but the child's parents were not contacted. When the child was picked up the parent was not informed that a caregiver had fallen while holding the child.	You indicated that caregivers will provide appropriate care and supervision. Children will be tended to following an accident to ensure they are not injured. You also indicated that additional training regarding appropriate supervision would be provided.	05/18/2020
R 400.8155(1)(b)	On 03/02/2020, a caregiver fell while holding a child. When the child's father	You indicated that caregivers will completely and accurately inform parents of the details regarding	04/10/2020

R 400.8375(2)(b)	The hill used to access the playground was slippery, resulting in a caregiver falling while carrying a child.	You indicated that the walkways will be maintained so as not to have a slippery surface. You also indicated that the walkway will be modified to be safer for infants and toddlers to navigate.	06/01/2020

It is expected that the corrective action plan will be implemented within the time frames as outlined in your plan.

A follow-up evaluation may be made to verify compliance. Should the corrections not be implemented in the specified time, it may be necessary to reevaluate the status of your license.
