III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Description of Facility

The rooms approved for care are as follows:

Lower Level

Large play room – 21 X 16 = 336 Sq. Ft.

Small room – 9.5 X 10.8 = 100.43 Sq. Ft.

Main Floor

Bedroom 1 – 11.3 X 8.8 = 97.49 S. Ft.

There is plenty of room for 12 children, and there is an adequate supply of toys and equipment for the children to play with. The lower level is the level that will be used daily. There is a bathroom on this level, and there are two exit doors from this level. The main floor bedroom will be used for sleeping. There is also a bathroom on the main floor if needed.

The Licensee is open Monday through Friday from 7:00 AM – 7:00 PM. She will care for infant through school-age children. She has a schedule of the day, which consists of meal times, group activities, learning activities, free play, rest time, and outside time.

The outside play area is completely fenced. There is a low deck in the yard, and if the children go out from the main floor, they will go down a flight of stairs to get to the backyard. There are sandboxes, riding toys, and a wagon to play with. There is also a large plastic play structure with a slide for the children to climb on.
